

RFID-mini cards

Our RFID mini cards are easy to use and convenient to carry in your pocket, on a key ring, or in a wallet.

The card can be used as a key, access card, personal ID card, and payment medium.

Simple to use

The card is held in front of the CompuMat reader for identification.

Light and sound indicate approval and activation.

Easy and intuitive – no buttons or display.

Choose your own print

The cards can be supplied fully customised with your own layout.

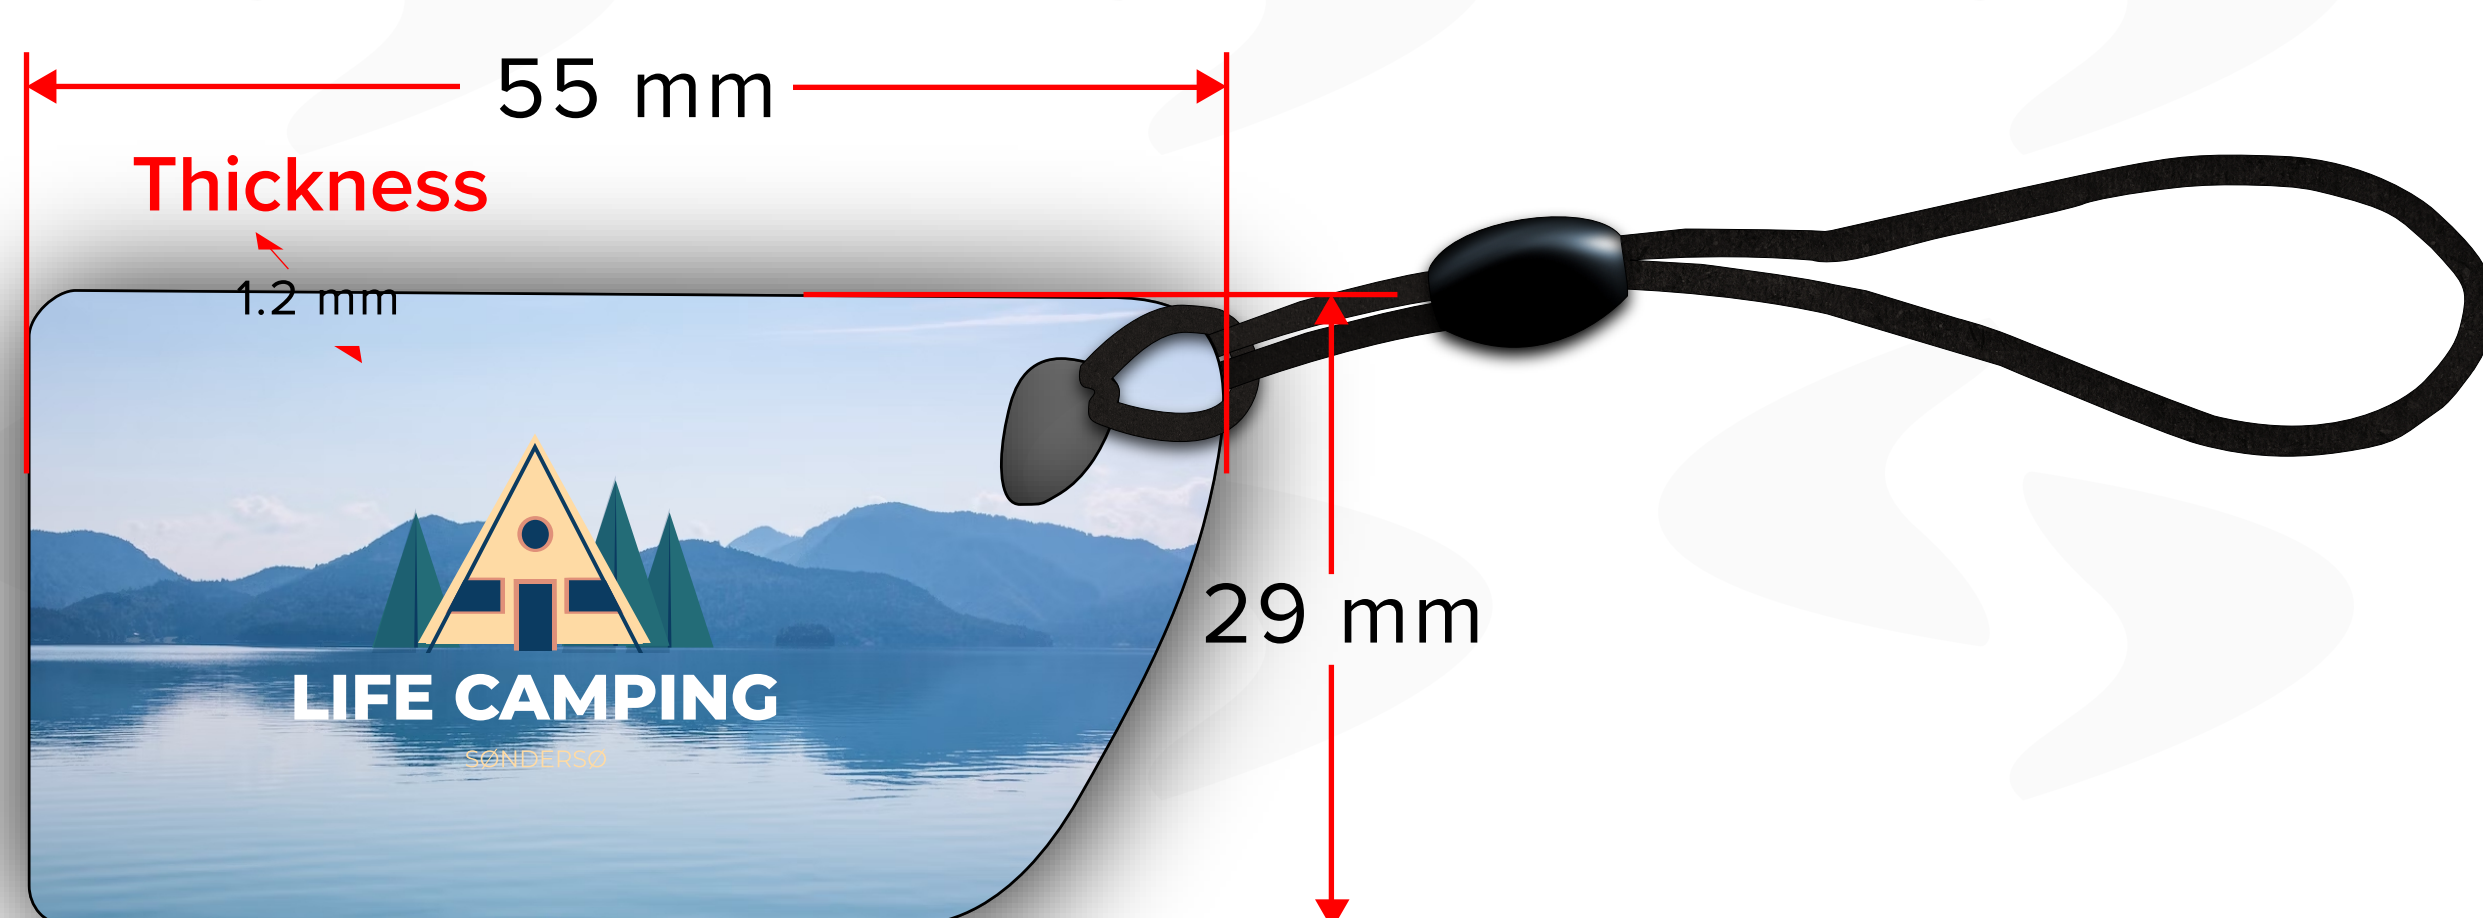

They can be printed on both sides.

Lightweight and durable

The cards are made of PVC, a durable material designed to withstand daily use.

Each card is supplied with an elastic cord, making it easy to attach to a key ring.

Dimensions

Specifications

Material / technology

- Material: PVC card with integrated RFID
- Card size: 55 × 29 × 1.2 mm
- Waterproof: Yes

Requirement for print files

- Text and graphics must be outlined
- Bleed must be specified
- Files must be supplied in high-resolution CMYK (300 dpi)
