

# Disposable wristbands

## Engangsbrug med chip

Our Tyvek wristbands are fully waterproof, robust, and highly durable.

With the RFID magnetic stripe, wearers can be identified quickly, securely, and efficiently, as the chip embedded in the wristband contains a unique code that cannot be cloned.

## Choose your own design

The wristbands can be supplied in your own design and colour.

## Functionality

The wristband is applied by fastening the adhesive ends together.

It cannot be removed without breaking, meaning it can only be used while worn.

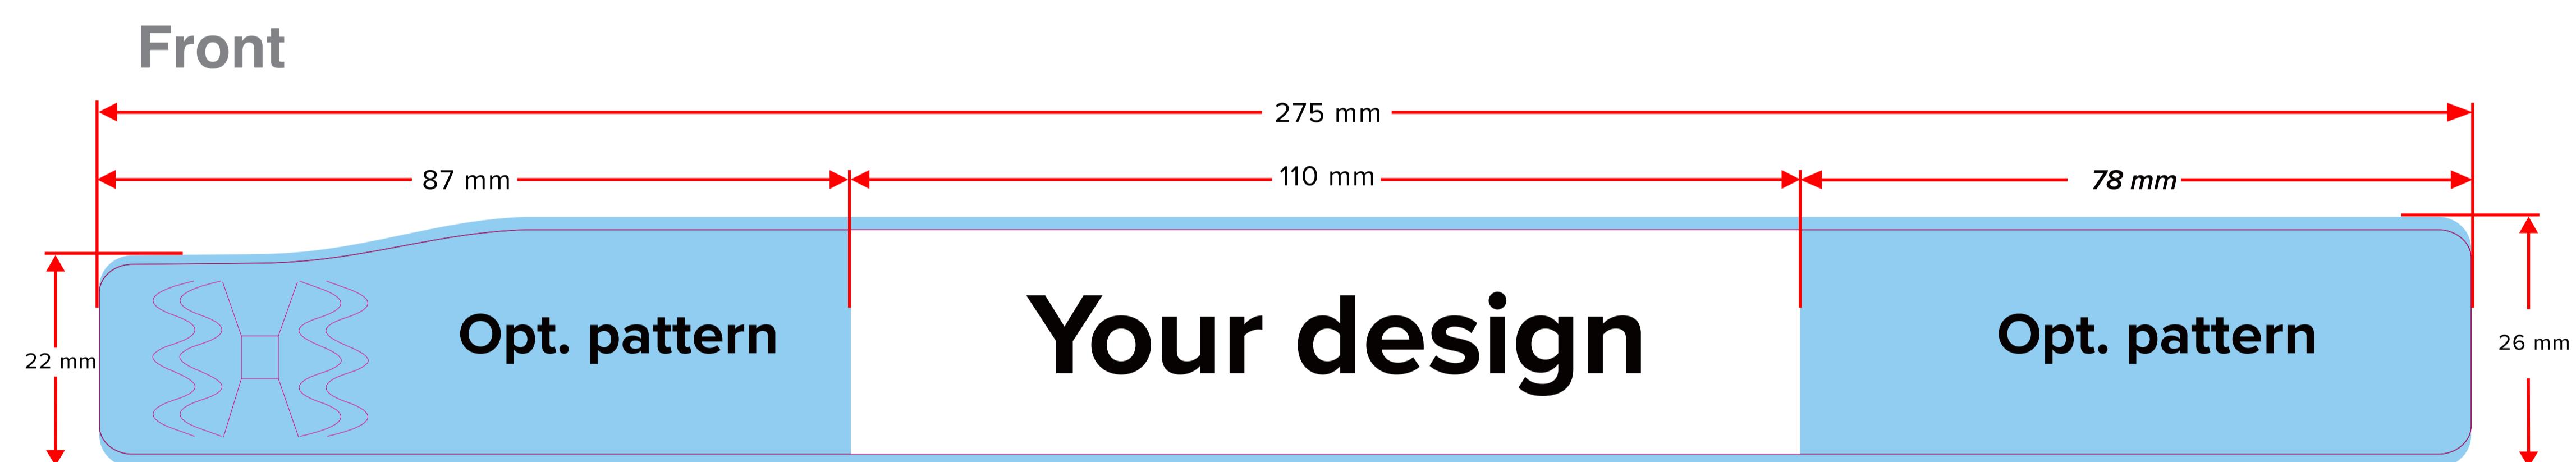

This also ensures that the wristband cannot be passed on to others.

## Dimensions

275 mm x 26 mm

Universal size

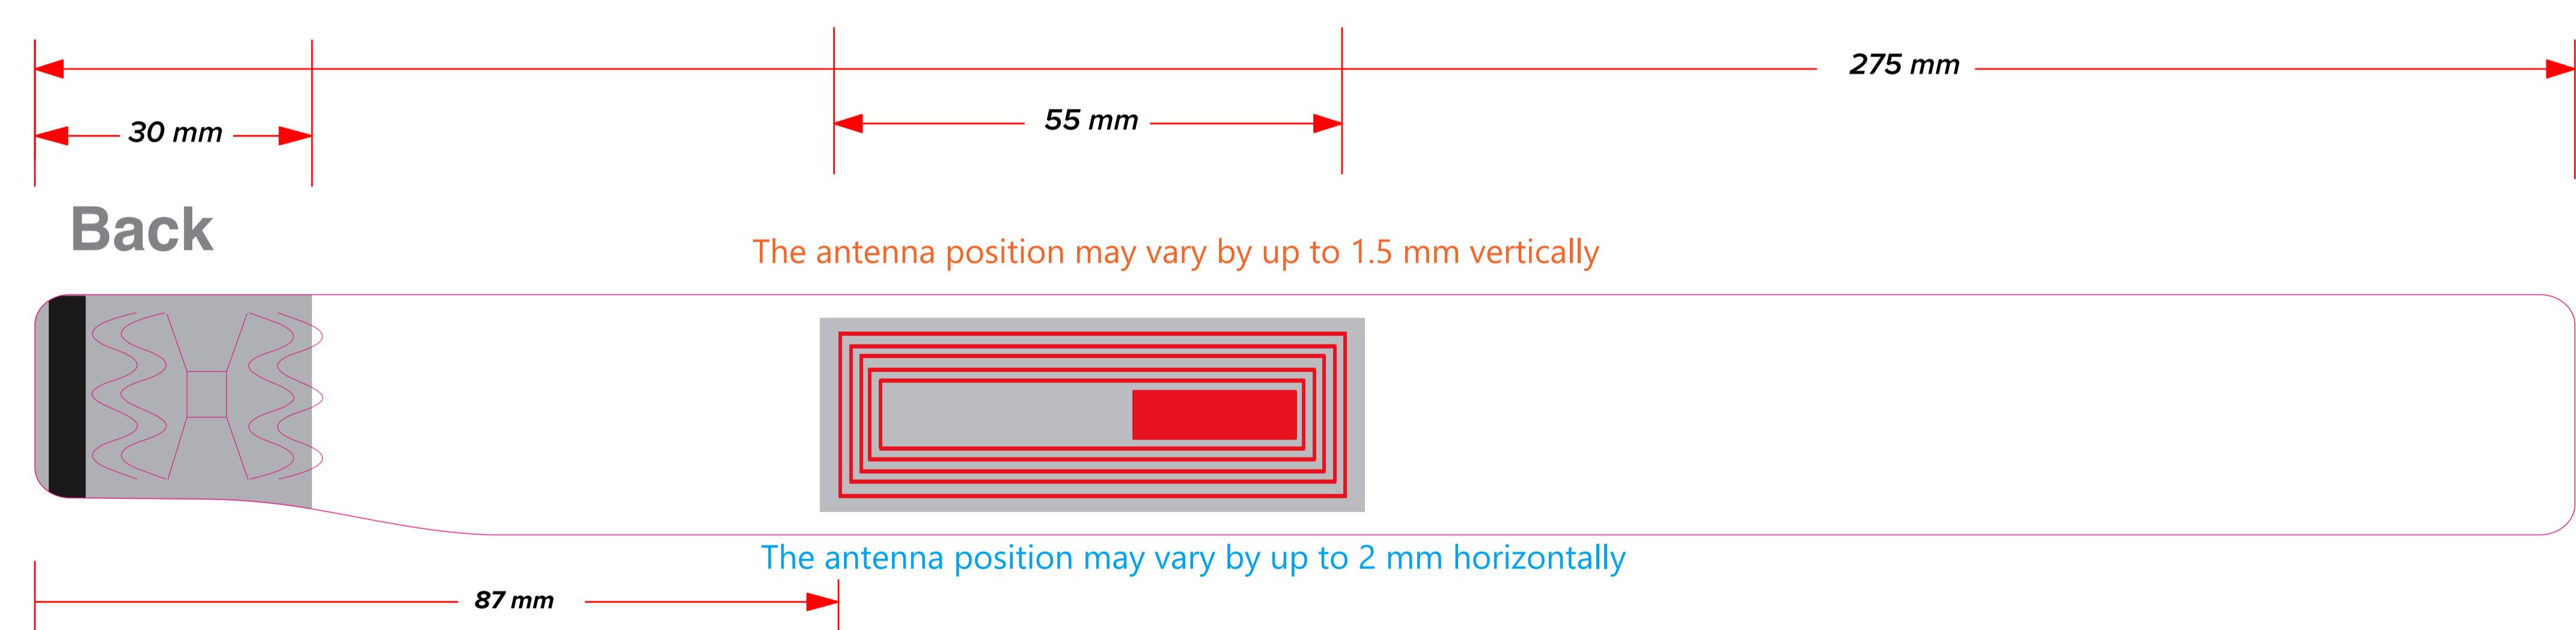

## Choose up to 6 colours

The wristbands can be supplied in up to 6 different pantone colours.
